

Approaches to Learning Activity for 18 to 24 Months

Changing Colors

This activity promotes curiosity and inquisitiveness in children and encourages them to create new visual effects.

Materials:

- Colored cellophane
- Embroidery hoop

What to do:

1. Stretch the cellophane inside the hoop.
2. Go for a walk outside and encourage the child to look at familiar objects through the cellophane.

Variation:

- Make hoops with several different colors of cellophane.

What to observe:

- A. Does he delight in making the world change color?
- B. Does he ask questions about what makes the objects change color?
- C. Does he want to experiment with different colors?
